

Mera Dog 's Community Contribution

Dogbo is a city located in Benin, which has a population of approximately 80,000 residents living in 40 villages. As a small and impoverished city, it lacks facilities that most of us take for granted in our daily lives. As part of Mera Dog's strong belief behind charitable causes, it has been actively involved in the Pro Dogbo project for years, and recently one of the major achievements was its involvement in the completion of a training bakery in Dogbo. It is the first bakery located in the city and there are plans for further extensions, hence any donations made this year will be contributed to the cause.

Education, confidence building & support

- Approx 1,000 loaves are produced at the bakery each day
- 8 trainees are completing apprenticeships
- Residents are involved in the bakery's promoting drives to increase their household income
- A true success story with the help of Pro Dogbo.
- More information can be obtained from www.pro-dogbo.de
